The most important webhosting event in Europe.

Get connected!

Welcome to WebhostingDay 2008

In business, networking is crucial for success. One who does not network and exchange with others may be losing ground in the long run. As webhosting companies, we provide the technical means to continuously improve networking at a virtual level. Thus, our line of business requires the pursuit of current trends as well as a constant exchange.

WebhostingDay 2008 offers the perfect platform for this exchange, and I am pleased to invite you to become part of the largest event for webhosting companies in Europe. It follows up on the great success of past years, and features more

than 30 international partners, interesting presentations, informative workshops, and hospitable gatherings. Most importantly, it offers participants unlimited and priceless possibilities to expand one's network.

Take advantage of this opportunity. I shall look forward to meeting you on 12th and 13th of March in Brühl near Cologne, Germany.

Yours sincerely,
